COMPANY ATTRIBUTES

VISION

To be an epicenter of Africa's Tech and Business development for people by creating bonding digital innovations and IT Systems for Businesses and NGO's

MISSION

To create, design and deliver result-oriented, cost-effective digital tools and various Tech Services.

OUR CORE VALUES

1. **Digital Innovation:** We are a team of engineers and designers focused on creating high quality software solutions for the web and mobile. Solving problems using digital tools is our specialty.

2. **Team Spirit:** We believe in working in a collaboration and encouraging everyone to play a role in everything we do because together we achieve more!

3. **Customer Satisfaction:** We focus on delivering products and services that our clients will be satisfied with. We engage with our clientele to give us feedback so we can work based on it.

4. **Integrity:** We thrive on conducting business in a manner that reflects completeness, transparency and honesty.

5. **Professionalism:** Effective communication with our customers to deliver products and services in a timely and effective manner is what keeps us going.

THE COMPANY

Unitech is a private firm, wholly owned by Malawian citizens based in Lilongwe and registered in 2018 in pursuant and in accordance with the provisions of the Business RegistrationAct (No. 12 of 2012) under certificate number MBRS1042096 in the index of company registration at the Registrar of Business Names office.

UNItech is based in Lilongwe, Malawi, Central Region opposite Gateway Mall in flood buildings. Our belief is in team work and innovation. IT being as dynamic as it is; requires vibrant minds that can provide solutions to corporate organizations helping them achieve key successes through the use of technology.

OUR PRODUCTS AND SERVICES

UNitech offers expertise in provision of Web solutions to companies and organization, we are one of the leading ICT companies that offers innovative and modern digital solutions.

OUR SERVICES

1. Software Development
We develop web-based software and standalone software. We also develop mobile apps for organizations. We develop School Management Systems, HR & Payroll systems, Online Cafeteria System, Church Management System just to mention a few.

2. Web Design
A website gives an organization credibility and creates trust. We design both static and dynamic websites that give our clients a unique online presence.

3. Website and email hosting
We host emails and websites, our hosting services enable websites to be online all the time with no or very limited downtime, we host emails with advanced security features that guarantee safety and privacy.

4. Network installation and maintenance
We install Local Area Networks (LAN) as well as Wide Area Networks (WAN) for different organizations, Institutions, companies or individuals. We also provide 24-hour network support.

5. Computer repair and maintenance
We fix both hardware and software problems.

6. ICT Training
We provide ICT training to organizations and individuals, equipping them with much needed digital skills.
